Forecast for Monday 15 Nov 2021

Weather: A bright start for many with low level mist and fog slowly clearing as cloud increases towards midday. A cloudy afternoon follows with patchy light rain and drizzle, mainly affecting western hills. Cloud lowering over hills in the west into the evening.

Chance of cloud free mountain/hill tops above 600m: Little chance at first in south and east, otherwise nearer 60% falling close to zero in the west from mid-afternoon.

Visibility: Periods or persistent cloud 300m or below in south and east lifting and breaking through morning, periods or persistent cloud above 300-450m developing in west by late afternoon and evening. Otherwise visibility good or very good, but less than a kilometre in early low level mist and fog, becoming rather hazy in afternoon and falling to just a few kilometres in drizzle.
